445 12th Street, SW  
Washington, DC 20554

Dear The Federal Communications Commission,

I strongly oppose having to pay more for my telephone service! I urge you to reject a flat fee proposal changing how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service considerably more expensive and no longer affordable.

Under the flat fee proposal you are considering, I who makes very few long distance calls, would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Robert Meisernheimer
